CNC Machine Operator Program | Haas Based Interface

eLearning Course: 950-CNCOP2

CNC Machine Operators require skills in operating a CNC machine but are not machinists. Through industry task analysis as well as strong involvement with our development partner, a large global manufacturer, Amatrol's CNC Machine Operator Program brings a highly focused, streamlined set of skills to CNC Machine Operator (Haas) training. Many training programs for CNC Machine Operators use training really designed for machinists, which incorporates a lot of theory not relevant to the role of CNC Machine Operator. For example, a CNC machine operator needs to know how to run a CNC program – not how to design one.

Warning: foreach() argument must be of type array|object, null given in /var/www/vhosts/amatrol.com/httpdocs/wp-content/themes/kallyas-child/dkpdf/dkpdf-index.php on line 193
